

# Dental Treatment Form

## General Information

Client's Name: \_\_\_\_\_ Phone Number(s): \_\_\_\_\_ Pet Information: Dog or Cat (circle one)  
Pet's Name: \_\_\_\_\_ Age: \_\_\_\_\_ Breed: \_\_\_\_\_ Is this pet a: male, female, neutered male, spayed female(circle one)

Has your pet eaten anything in the past 8 hours? Please circle one: YES or NO

\*\*\*All pets that undergo dental cleanings are required to be on oral antibiotics for 7 days after the procedure. The cost of these antibiotics varies with the weight and species of the pet. If you would like us to prepare a written estimate of the anticipated charges, please ask.

You have wisely chosen to have your pet's teeth professionally cleaned and polished. Good dental hygiene is very important to your pet's long term health. During your pet's dental cleaning we may encounter diseased or abscessed teeth that cause chronic pain and need to be extracted. If these types of things are encountered while your pet is under anesthesia we need to know how to proceed so your pet is not under anesthesia longer than necessary.

Please choose one of the following:

1) Perform whatever procedures are needed to ensure proper dental health for my pet.

-OR-

2) Perform only what I have authorized. I understand my pet may need to undergo another anesthetic procedure in order to complete the dental procedure.

## Pre-anesthetic Blood Screening:

At Callfield Companion Animal Clinic our greatest concern is the well being of your pet. Therefore, prior to placing your pet under anesthesia a thorough physical exam will be performed. However, there are life threatening illnesses and conditions that are not detectable on physical exam alone. A pre-anesthetic blood screen can help us identify many potential problems such as liver or kidney disease, or Diabetes. Pre-anesthetic blood screening costs an **additional \$ 62.<sup>00</sup>**

\*\*IF your pet is **8 years of age or older** pre-anesthetic blood screening is **REQUIRED.**

-OR-

\*\*If your pet is **less than 8 years of age** pre-anesthetic blood screening is **HIGHLY RECOMMENDED.**

\_\_\_ YES-I would like to have pre-anesthetic blood testing performed

\_\_\_ No, my pet is less than 8 years of age, and I decline pre-anesthetic blood testing.

## Vet's Choice Plan

The Vet's Choice Plan allows us to provide the highest level of safety for your pet's anesthetic procedure.

- Propofol anesthetic- the safest anesthetic induction agent available
- Intravenous Catheter- in case of an emergency situation an iv catheter allows the fastest and most effective route for administration of life-saving emergency drugs.
- Intravenous Fluids- prevents low blood pressure and allows adequate blood perfusion to organs that metabolize anesthetic medications.

\*\*The Vet's Choice Plan costs and **additional \$109.<sup>00</sup>**

\_\_\_ Yes, I accept the Vet's Choice Plan

\_\_\_ No, I decline the Vet's Choice Plan

## Informed Consent

I am the owner, or authorized agent for the owner, of the pet above and I authorize the staff of Callfield Companion Animal Clinic to perform general anesthesia and a dental cleaning on the above pet. The nature of the anesthetic and dental procedures has been explained satisfactorily to me and I understand what will be performed. I also understand that there are certain risks and complications, including death, that are inherent to any anesthetic procedure. Further, I understand that during the course of the procedures unforeseen conditions or complications may arise that need emergency treatment. I authorize and consent to any and all treatments deemed necessary by the staff of Callfield Companion Animal Clinic in the event that such conditions or complications should occur. I also agree to be financially responsible for these treatments. I understand payment is due at the time of service.

*By signing your name below you indicate that you have fully read, understand, and agree to this informed consent. If you need further information please ask.*
